Asbestos Services UK Ltd celebrates as HSE licence is secured

Asbestos Services UK has once again secured its three year licence following a successful review and audit by the Health and Safety Executive (HSE).

A three year licence marks the longest period within which a licence can be allocated and is essential for any business working within a high risk asbestos environment. The renewal follows an intensive assessment by the HSE that included a thorough review of AS UK policies and general procedures, interview and site visits.

Dave Coleman, Managing Director of AS UK said:

"We're of course delighted to have once again secured the license renewal for the full three years. As a team, we've worked hard to ensure all of our processes and procedures are to the highest standard in terms of practices and health and safety, and our efforts are reflected in the successful renewal."
